Orban, a worldwide leader in audio processing for AM, FM, TV and Internet broadcasting, will be conducting four upcoming teleconferences with Founder and VP of Engineering Bob Orban. These GoToMeeting teleconferences are presented for selected Society of Broadcast Engineers (SBE) chapter meetings throughout the USA and feature key elements vital to maintaining audio quality in the broadcast facility. Mr. Orban will make a 45-minute presentation at each meeting followed by a Q&A session with attendees. The Bob Orban SBE Teleconferences Series, now in its fifth year, is sponsored by longtime distributor of Orban Optimod Audio Processors Broadcast Supply Worldwide (BSW).

Due to Covid 19 the SBE currently recommends suspension of in-person meeting, and Orban now has the capacity to accept up to 150 participants for these online-only presentations. Local chapter members will receive notice of presentation time, program description, and GoToMeeting password prior to their event.
